The “Approach” Shot: Wedges and More! *With Coaches Joe & Ken*

You are 60-100 yards from the green. You grab your wedge because you believe it’s what happens from this distance, right? This two-hour program will help you improve your approach shots with your wedges as well as provide opportunities to discover additional options when approaching from these distances.

Learn how to create **YOUR** best game plan for each distance!
Develop **YOUR** best performance routine!

This class is limited to 8 students.

Weekend Wedges

*Increase Your Short Game Confidence and Competence
With Coaches Joe & Ken*

Great short game players know how to look at a situation and have the confidence and competence it takes to execute the shot.

Weekend Wedges will focus on using your wedges from the 5 to 60-yard distances, and will emphasize deliberate practice, discipline, variability, assessments and enjoyment. This class relies heavily on the essential playing skills of *VISION54*® giving you a greater awareness of yourself and your short game. Your learning will consist of structured and random practice.

By attending these classes, you will increase your confidence and competence in your short game, leading to lower scores.

This 4-hour session is conducted as two, two-hour sessions on consecutive weekends.

This block of practice is limited to 8 students

Game of Wedges

*Assessing Your Wedge Performance
With Coaches Joe & Ken*

Assessments are an integral part of the learning landscape. Merely hitting shots with no consequences does little to improve your game. To reach your peak performance, it is important to practice scenarios which reflect your experience on the course.

This 2-hour session will help you assess your skill level with your wedges from 50 yards and closer. Through task-based assessments, combining testing and positive reinforcement, you will receive helpful feedback on your wedge skill level.

This class is limited to 8 students.
